The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 09/823,846	<b>Applicant(s)</b> BENSOUSSAN ET AL.	
	<b>Examiner</b> Romain Jeanty	<b>Art Unit</b> 3623	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This Final Office Action is in response to the communication received on April 30, 2007. Claims have been amended. Claims have been added. Claims 1-27 are pending in the application.

### **Response to Arguments**

2. Applicant's arguments filed on April 30, 2007 have been fully considered but they are not persuasive.

### **Election/Restrictions**

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-22, drawn to computer implemented method for risk analysis under uncertainty class 705, subclass 10.
  - II. Claims 23-27, drawn to a computer method, classified in 705, subclass 8.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such resource allocation and demand and forecasting. See MPEP § 806.05(d).

Art Unit: 3623

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Newly submitted claims 23-27 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 23-27 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### **Claim Rejections - 35 USC § 103**

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject

Art Unit: 3623

matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 1, 3, 9-14, 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cheng et al (U.S. Patent No. 6,006,192) in view of Masch (U.S. Patent No. 5,930,762) as set forth in the last Office Action.

9. Claims 2, 4-5, 7-8, 10-11, 15 and 21-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cheng et al (U.S. Patent No. 6,006,192) in view of Masch (U.S. Patent No. 5,930,762) and further in view of Li (U.S. Patent No. 6,453,303).

#### **Remarks**

10. Applicant asserted that the combination of Cheng, Masch and Li fails to teach the claimed invention. Applicant further supported his assertion by arguing that Cheng, Masch, Li, and Rosensteel fails to teach the specifying the component plan to be analyzed is performed prior to the submitting the request analysis. In response, the examiner respectfully disagrees. Rosensteel teaches the concept of a graphical interface that allows a system administrator to view the different components of warehouse requests for analysis prior to execution by the warehouse system, which reads on applicant's claimed limitations. Note col. 3, lines 39-66, and col. 11, lines 38-66 of Rosensteel. Therefore, it would have been obvious to a person of ordinary skill in the art to modify the teachings of Chen, Masch, and Li to include the teachings of Rosensteel so that the administrator can view the request from the highest level and manages the execution of the request.

Art Unit: 3623

### **Conclusion**

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
